

Village Facilities

■ The Post Office in Walberton is a vital facility and should be protected.

■ The Plans should promote a better range of shops in your village.

■ The provision of children's play facilities in the villages needs to be improved.

■ Young people should have better sport and games facilities in our parish.

■ Young people need somewhere to meet and socialise.

■ A long term tenure of the allotments in Yapton Lane should be secured; if this is not possible, an alternative site of similar size should be found.

A bus service to Chichester

A cut in bus services would lead to greater isolation, perhaps the need to move elsewhere.

A multi use sports facility might be useful and appropriate

A youth club

Allotment owners may not want to move.

Allotments - very important. We grow our fruit and veg here. Children play here. We use this several times a week. Shop and post office-we use this most weeks.

Allows no space to 'disagree'. If children/young people are to have more space allocated for amusement, this MUST be supervised. We have enough of a vandalism problem as it is, and unsupervised youngsters get into mischief, as I know only too well from my previous homes. Loss of facilities: I work from home and the loss of the Post Office would cause me a lot of expense, lost time and other difficulties. I use the local grocery and newspaper shops, and would otherwise have to travel into one of the towns, involving time, fuel and parking costs. I use the local hairdresser and travelling elsewhere would increase my costs and time loss. I use the launderette and there are no alternatives within a reasonable distance. I attend events at the village halls and playing fields I prefer to attend the local doctors' surgery in Walberton

Any reduction of current facilities.

As a business we need the Post Office

As elderly residents loss of the Post Office, village stores and laundrette.

Being secretary of WAA it would be wonderful to know that we have a secure tenure. The allotments are really a tremendous asset for the village life of Walberton and surrounding villages. Greatly enjoyed by all.

Better facilities but why another community play centre! Pavilion, Village Hall, Methodist hall. Waste of £100k developer contribution. No more public buildings

Bus route to Chichester Dentist Hair Dresser Shops

Bus service from Walberton to Barnham station would be very inconvenient

Bus service-trips to Barnham, Chichester etc. Dentist. Postoffice. Newsagents. Hairdressers.

Bus, shops-general, post office, village hall.

Buses, shops

Closure of petrol stations Closure or reduction in opening hours of co-op in Yapton

Community Bus essential

Copse Lane has always been a bridleway and should remain so.

Dental Hall Bus Service

Dentist Village shop Post office

Doctors

Doctors surgery - Necessary for residents without transport. Post office - (especially for money withdrawals)

Doctors surgery Launderette Post office Bus service

Fontwell now has a shop we don't need anymore

Fontwell stores is also important as are our pubs

Fontwell village finally has a wonderful store

Fontwell village shop. Petrol station.

Footpaths, Dog walking areas for the elderly for example National Trust Land

Fontwell now has a wonderful village store and we want to preserve it

I do believe that Walberton P.O is essential for providing a good service and with good parking

I don't want more shops in the village.

I use the post office, but have to go to Barnham, Yapton or Arundel for a decent sized grocery shop (co-op). This is fine for me as I cycle there, but many people would drive, adding to congestion and pollution. I don't know how I would manage if I didn't cycle or drive (I don't know what the bus service is like) as you cant easily walk.

I would like to respond "no don't agree" to the above questions but I only have agree, no opinion or don't know to chose from This must be a mistake .?

I'm assuming the response headings are incorrect and that 'No Opinion' should read 'No'.

If a house has a garden, no person should need an allotment, grow vegetable in own garden.

IF new houses are being built in the villages then services locally need to be improved aswell

if the range of shops could be improved , very good, but is this not a commercial decision Ref. the children's play facilities - are the provisions at present not satisfactory?

In 1990 Fontwell has a selection of shops, a post office etc. These have all gone.

It would be a nuisance to loose the post office (eggs, bread and parcels, packages, cash, dry-cleaning, paying in cheaps).

It would be a shame to lose the post office or shop.

Lack of shops and pubs

Launderette Post office Village hall

Local shops should not be chain shops like tescos

Losing the P.O is going to be a big blow.

Losing the post office

Losing the post office would be a disaster, it would then be necessary to drive to Barnhan or Arundel, already full of traffic and at times without any parking availability

Loss of post office

Loss of post office and newsagents/shops

Loss of post office would be disaster

Loss of post office would mean a journey to Barnham for a book of stamps. Loss of general store would also mean more car journey to Barnham or Chichester.

Loss of post office: would necessitate travelling to Yapton, difficult because lack of buses and potential inability to drive because of age.

Loss of the Post Office Hairdressers Dental Surgery

Loss of the post office in Walberton will be a disaster for all now deliveries-there is no usefull bus service. Post office are important for weighing letters and parcels and banking. Large numbers of people are still not online. Our post office is used by those with young children, the elderly, free parking, the village shop and surgery facilities are also essential.

Loss of the Post office would create problems for many of the residents.

Loss of the post office, shop would cause difficulties for less mobile people who didn't drive.

Loss of the Post Office, the pub and the bus services would cause difficulties

Loss of the Walberton Post Office

Loss of warburton post office and also 5 and 9 motors also turnpike Garage

Lost of post office and village shop would cause problems as we don't both drive.

More things for older children to do in the park. Base park on the one in Murrell's field in Barnham

My wife is disabled, so her ability to get about is very limited. Losing the village shops and post office would be a devastating blow to her as it is often the only link she can get to easily without, as I'm sure it is the case for most of the village's elderly residents.

National trust land for allotments

New village shop in Fontwell only recently opened, needs to be supported.

No more expansion

No post office or shops

No post office The village is special because of its facilities, ALL of them make Walberton a vibrant village.

Not really though we can always have more and I prefer "local" to superstores.

OK as it is

Our current Fontwell village shops are important, for themselves and for the village, putting new shops elsewhere will be destructive. Improve Arundel Road shop parking, street scene, and street furniture, especially at the London Road end which is a disgrace, even dangerous as to pavements, parking and bus stops.

P.o 2 Laundry 2 Pub.

Please provide parking out of village centre for school collection and delivery times! KEEP off the soft verges.

Post office

Post Office -would miss the services provided ie banking, foreign currency and sending of parcels. General stores for small items of groceries. Launderette on occasions. Our wonderful village hall is a focal place for community events.

Post office and cafes are important for the mental health of older people. Loneliness is a huge problem so it is good to have people to talk to at the hairdressers and launderette.

Post office Buses

Post Office Central Store Pub

Post office convenient for village especially the seniors without transport

Post office facility is most desired and should be maintained in some form

Post office Grocery shop Dentist Bus service

Post office Grocery store

Post office Hairdresser

Post office I don't agree with the village life statement - enjoyment of village life is not dependent on services!

Post office must stay, as cannot always get to the nearest alternative. It is a local point of the village. Garage also necessary

Post office Shop

Post office Village shop

Post office Village shop

Post office Village shop Hairdressers

Post Office Walberton , bus services

Post office would be a major problem. Milkman.

Post office, busses

Post office, doctors surgery, dentist, General store, pub

Post office, launderette, bus service, shop hall, paths to walk in countryside

Post office, local shop, bridle way.

Post office, village shop, churches

Post office, village shop, village hall, playing field, school

Post Office, village stores walberton

Post office, village stores, laundrette, hairdresser, surgery

Post office: available for cash machine, also a general shop Village shop

Post office.

Provided the existing play facilities are protected and the recreation ground kept in good order then I can see no reason for spending more money to enhance either. If however additional houses are built in close proximity to the village of Walberton more leisure facilities would definitely need to be built.

Pub, Post Office, Shop & Laundrette will be even more essential if population is to increase. But for a healthy mixed age and type community we definitely must consider the needs of young people as well as of the elderly

Pubs should be protected as they are a vital meeting place

Shame hard court lost for another building on village field area

Support local village store in Fontwell

The answers I have put no opinion to I would have put NO to if I could have.

The Croft surgery is all ready full, need more

The form does not give me an option to disagree. This should really discourage it as the village will be compromised.

The local shop in Walberton

The loss of any facility would not be good especially post office and other shops. It would just make people have to travel further.

The loss of the post office and general store would be an inconvenience, to be regretted but would not cause any significant difficulties. I consider that the continued presence of the pub/restaurant in the village should be supported..

The loss of the post office would be distraction for older people and those who don't drive

The loss of the post office would be terrible. along with the village shop. loss of access to the park area and green spaces.

The loss of the post office would have a big impact on the village

The loss of the shop in Fontwell would mean the loss of my job

The loss of the shops would be a disaster to many villages the same applies to buses

The natural habitat and currently the ability to gain easy access within our local community.

The newsagents in Walberton is vital. It currently provides a good range of products. The post-office is vital. It is used by me to get cash, post, stationary, coffee shop for visitors

The parade at Walberton is regularly used by all members of our household

The play area at the park is awful and only for toddlers - nothing for teenagers

The post office and other services offered on the premises is vital to the neighbourhood.

The Post Office and the village shop are vital facilities. Their loss would involve travelling by car to Arundel or Barnham.

The Post Office and village shop are vital to the life of Walberton. Should they be threatened, we would have to drive to Arundel.

The Post Office is very important.

The post office is vital for me as I have limited walking and being able to park nearby means I can get use of all their facilities from postal services to greeting cards, bread etc and can socialise in the cafe area. The Laundrette is important for larger items like duvets etc and if the washing machine goes wrong. The newsagents/Store fulfils the requirement for foodstuff.

The post office would biggest loss as I use it frequently. I don't frequent the hairdressers or shop as much.

The post office, dentist, the pub, Health services

The post office, Village stores

The pub

The village must look to its future generations and provide for young people. Places to meet, sports facilities (also for the not so young) and play facilities.

The village shop in Walberton is a great facility. No further loss of green space on the playing field. Footpaths across the fields and farmland.

The windmill shop

There is no option to disagree! No opinion and don't know are basically the same. Poor questionnaire design.

This section does not allow a disagreement, and a lot depends on where. This is badly done. We have a recreational area and a social hall - but young people are banned from it. Fontwell had a hall, but it was demolished for money to kit out the Kitchen at the New Walberton Village Hall - so I have been told.

Turnpike Garage - Essential for M.O.T. within walking distance.

Very important that the Post Office in Walberton should be protected

Village facilities are adequate - and should be protected - post office in Fontwell within the 3 villages good food sites / shops - I am guessing that family shops are with larger supermarkets - also many necessities bought outside village - retired people possibly value local shops more.

Village shop and post office - within walking distance. Otherwise would need to drive to Yapton, Barnham or Eastergate - state of the roads makes it inadvisable to cycle!

Village shop Post office

Walberton is an active village, need more shops and Post office

Walberton is fine with its current shops and recreational facilities, these should be protected.

Walberton is very well served compared to many villages but losing the PO will be a very severe blow. There are many places for meetings The Pavilion, Hall, Small Hall & now the new building as well as some more private places such as the Baptist hall.

We are content with our village, exactly as it is at present, peaceful, relaxing dwelling!

we don't need any more shops in any of the villages

we don't need anymore shops we have enough

We have a shop in Fontwell we don't want any more as we use Walbertons

We need to keep the post office at all costs. It should always be in the centre of the village.

We would be affected if the post office and allotments closed. The shop, hair salon and dentist also

We would not want to lose the post office, shop for groceries and papers pub, as a meeting place

Where are you going to put them, another building plot? Adequate up to 10 yrs, skate park or similar

Why is there no 'disagree' option?

With more shops we need to take care to preserve business in existing shops

Without Post Office we could not do banking etc.

Years ago we had 4 accessible shops in Walberton and are now reduced to one. The post office is a vital asset and very well used. It must stay.

Young people need somewhere to meet and socialise

Please use this space to list all the improvements and new facilities that you would welcome.

Pub in Fontwell

1 improvements to the Village Hall, which at the moment is reliant on fundraising stop 2 replacement Pavilion 3 improve pavements around the village 4 a butcher in the village offering fresh meat would save a trip to supermarkets and a better range of fresh food generally would be good stop

1. Doctor's surgery 2. School

1. Doctors surgery. 2. Public transport, cycling & walking routes - any new development must be supported by good walking & cycling routes and reliable, accessible public transport - seen as a viable alternative to using the car. 3. Create safe crossing points of the A27 so that the south downs & National Park can be accessed by families (children), cyclists, walkers & horse riders without having to resort to the car, horse box etc. The only safe crossing point is the underpass at Fontwell which is too far away for Walberton, Binsted etc.

1. Drainage improvements in Barnham Lane 2. Enhancement and improvement of The Street infrastructure, including measures to reduce congestion in the centre of the village and to help reduce speeds of traffic west of Dairy Lane 3. More frequent bus connections between Walberton and Barnham Station 4. A takeaway food outlet, to save trips to Barnham

1. Outdoor adult exercise area with all-weather equipment 2. Tennis Court 3. Rebuild & expand Pavilion to widen use - perhaps changing rooms, showers, etc. 4. Skate/skateboard park 5. Expansion/improvement of infants' play area to provide equipment for older children.

1) Build earth wall or fencing along A27 to cut down noise in village. 2) Greatly reduce large lorries coming to A27 from A259 ie. all non-essential who are using the roads ie. Yapton lane. This could be done with signage. 3) Add large shrubs and some trees around the village green to enhance visiting it and sitting there.

A car park for the school with an in out drive way

A decent village tea room/coffee shop would be welcomed. Also improvements to the children's park are much needed. There are so many families in the village that would benefit from this.

A dedicated green space

A foot bridge or tunnel across the A27 nearer to the east of the parish than the one at Fontwell - e.g. a foot tunnel through the embankment over the Binsted valley. A new footpath to it would be needed. A better space for waiting for the bus in Yapton Lane near to Hedgers Hill. The present one is too small and too near the road. A pedestrian and cycle path between Walberton and Barnham.

A footpath from Walberton to Barnham.

A footpath on West Walberton Lane between Long Mead and Copse Lane. Reduction in speed limit to 20mph on the Street between Pound

A new roundabout top of B2143 to ease access to A27, a footpath from Walberton village to Fontwell/Slindon

A new street light is needed in this part of the village. Only one light at Molly Tree Cott and the Twitten. In the trees. When we attend evening meetings we have to walk in the road because it is so dark and we take a torch with us. The pavement in this part of the village is dangerous the elderly and the disabled are wary about walking on it.

A new village green for Fontwell.

A rugby pitch.

A stretch of pavement from the bottom of Copse Lane down to where pavement starts opposite the green

Additional doctors facilities are desperately needed NOW, let when there is further housing.

Address the flooding issues that affect Barnham Lane

Affordable housing for young people More street lights in the village Fill in potholes

All weathers sports pitch - flood lit

Another doctor surgery Extra parking space

Any new properties must have adequate services

Any surplus funding could be used to finance a Walberton community housing association, to enable young people to remain in the village, or elderly people to downsize. These properties could remain the property of the community under trust Do we have an instant first aid response, ? community defibrillator equipment and trained operator Do we have an elderly person house watch system ?

As I do not want new housing on one large site I see no need for extra funding. I understand our limit for new houses is 50. A pedestrian crossing (especially needed for disabled people and children)

Barriers to keep horses off public footpaths, bus shelters at all bus stops

Better access through village, improve blacksmith corner vision

Better broadband.

Better children's playground

Better infrastructure.

Better inter village transport Better facilities for young people to practice sport.

Better maintenance on roads locally

Better parking facilities

Better parking Improve street lighting

Better pavement

Better public transport More off road parking to keep middle of village clear (Walberton)

Better road services. Some better pavements, cycle paths between villages and neighbouring towns such as Arundel and Chichester. More work to prevent flooding in the street.

Better sports and games facilities. Improved play facilities for young children. Community hall (Fontwell), if housing increases significantly.

Better street lighting

Better street lighting. Cycle route between Walberton and Tangmere.

Better traffic management in The Street. Possibly speed breakers.

Better Youth facilities for age 10+ - Skate park and climbing facilities Bigger village car park?

Broadband needs to up to a workable speed for all residence.

Build a medical centre

Bus shelter

Bus shelters

Cafe

Cameras or speed control of feeder roads

Communal Park/Garden, maybe with fountain. Historical walking trek Contemporary sculpture

Community hall

Community shop/cafe

Condition of the smaller roads/ lanes need improving - potholes! Safety of the roads - lots of walkers, cyclists, horse riders in the area and children walking to school. Increased housing would be a drain on the already overstretched G.P. surgeries. Slindon CofE Primary school desperately needs a school hall.

Cycle routes to keep the youngsters safe and off the roads whilst allowing independence

Cycle/ footpath to Barnham Funding for speed control in The Street, Walberton Improved facilities for the elderly in the village, the new-preschool should be converted to a day facility for the elderly which would be more appropriate for the demographic of the village.

Cycle/Pedestrian route between Walberton & Fontwell Purchase the land between Fontwell Avenue & Wandleys lane for community farm/ recreational space Rebuild the Balls Hut

Cycle paths, develop park, slip road at eastern junction of Arundel Rd

Depending on number of houses built: Doctors surgery, NHS dentist and schools.

Developers use this to get a foothold in areas e.g. Hanbury used the holly tree pub to get into Walberton. The houses they have built are overpriced 2 unsympathetic!! They are now going for house number 7 behind the pub and are trying to get their hand on Tupperts field!! Its time to stop them!!! They are too greedy!!!

Doctors School Community facility

Doctors surgery

Doctors surgery improvements to cope with the extra numbers. School facilities to cope with extra pupils. A community garden for villagers to maintain and plant if they wish, or just sit and enjoy, with an area for vegetable growing aimed mainly to encourage children to grow their own vegetables.

Doctors surgery needs to be improved, particularly the parking area.

Drainage needs upgrading, traffic management, new medical facilities

Extra funding for the community is usually associated with large housing developments which we do not support.

Facilities for children

Facilities to enable schools to provide enough places support for youth activities

Farm Shop

Fontwell. More shops. Post office. Playing field for the children. Village hall. Meeting place.

Free parking places, shops, children's play areas, traffic signs on what size and weight can come through village

General recreational and sport that Also the growth of a large dynamic centre to cater for the old, less mobile members of the villages, But not a Day centre. Possible funding of ambassadors to help with cohesion between all parts of the community.

GP surgery, street lightening, pavements

Gym

Hard track around playing for running, dog walking, children learning to ride.

Having only very recently moved to Walberton, I find this hard to answer. Neil's shop provides most of what I would expect from a Village Shop, and if he operated a Post Office as well, I would see no need for a separate one. Lack of a Post Office would be a distinct loss of amenity.

House builders need to be encouraged to build some social starter houses and contribute to local infrastructure (school, road medical)

Housing.

I am happy with the villages facilities as they are - change for changes sake is not always good. Developers use the promise of new facilities to enable them to get planning permission for new developments. We need to see through this - its bribery!

I am perfectly satisfied with my village as it is, apart from speed limit through village. Should be 20mph. Ban all heavy vehicles through the street. Parking for the Holly Tree must only be their car park due to lack of parking for toraced cottages.

I am very dubious about this

I believe the sports provisions in the 6 village area with Barnham Trojans and Walberton Wasps football clubs with Eastergate And Walberton Cricket Clubs there is plenty of sports provision for those that want to play sport.

I think the Cricket Pavilion could be enhanced and upgraded and used more by younger groups. A tennis court would be a good sociable sport to encourage in the village. If properties were to be developed on Yapton Lane I would hope the footpaths were enhanced so people could walk into the village.

If we wish to restrict the number of houses in the village to ~ 50 units would this be enough to release funding for new facilities or if we want new facilities in the village do we then have to vote for additional houses over and above the fifty units? Can we have flour in our mouth and blow at the same time?

Improve cycle paths, parking for shops improved, wider variety of shops, coffee shop/deli, fruit and veg shop selling local products, potholes and roads checked especially Walberton lane and road to Barrnham.

Improve pavement Walberton

Improve roads

Improve street lighting Pedestrian and cycle routes as outlined in the questionnaire Better sports changing facilities at Walberton recreation ground/ youth meeting place Enlarged children's play area at recreation ground Skateboard facility

Improved bus service around the villages, cycle ways, more Dr's

Improved cycling walking Street light on The Street Improved maintenance of existing roads and footpaths so they are safe for walking and cycling and riding especially in darkness.

Improved drainage infrastructure. Improved telephone/ broadband services. Additional shopping units ie newsagents and general store. highway improvements.. Establish Dentist and health center.

Improved facilities for GP surgery. Keep roads in reasonable condition. Transport for the elderly.

Improved facilities for young people - street games, socialising

Improved GP facilities and opening times, retain post office, cycle paths, improved surface water drainage

Improved medical facilities, larger surgery, better parking. Cycle paths between villages. 20 mph speed restriction along West Walberton lane. And along Wandleys lane. Weight and width limit on Arundel road to restrict use by heavy goods vehicles.

Improved or new footpaths along the dangerous lanes. The money could be used to purchase strips of land for these couldn't it?

Improved play park suitable for children over 5 years old.

Improved recreational/exercise facilities-outdoors.

Improved road maintenance. Improved broadband services. Infrastructure developments to cater for increasing numbers in the village, including village sports facilities.

Improved sports/leisure facilities for the young

Improved walkways, Footpaths. For every tree destroyed by developers they should plant 20 new ones. A country park or protected wildlife site

Improvements of the pavilion

Improvements to footpaths in general

Improvements to infrastructure, particularly the drainage system in West Walberton Lane

Improvements to pavilion or replace.

Improvements to West Walberton Lane which has a poor and bumpy road surface.

In away, the beauty of our village is that we do not have too many facilities. Better sports facilities for youngsters-football goals up all year. A multiple use game room (muga) so multiple sports can be played all year round. A house or homely setting (not cold village hall) where youngsters can meet and spend evenings. Managed and maintained by the youngsters but overseen (at a distance by the adults). Additional facilities may be needed by the elderly as we have quite an ageing village population.

In the villages improved walk ways and parking close to the shops

Increased school places and facilities. Add funds for opposing development schemes. Maintain village as it is.

Infrastructure is most important with any large developments

It is not just developers who could give 'extra funding' what about the owners of the land user consideration? Pipe dream! Any money raised could be used to defray council tax thereby benefiting many. It is difficult to be enthusiastic about 'new facilities' so many clubs societies and organisations have failed. eg. Tennis club, swimming, pool, badminton, library, red cross, scouts. In many cases due to lack of enthusiasm. R.I.P the basketball court. P.s what about having a litter picker on the payroll? With a barrow broom and shovel.

It should be used to provide free, fast broadband, anti-flood facilities and a club for teenagers. Also to provide more allotments or to buy the land that is used for allotments on Yapton Lane

Just leave things alone and stop "improving" things.

Keep the rural feel and surrounding countryside

Keep the village from turning to a town

Large developments should be avoided

Less traffic in Yapton lane would improve our lives and give a little peace. Shops in Walberton to avoid the supermarkets.

Lighting of streets and Dr Surgeries

Locations for young people

Maintain bus route and regular buses Maintain post office and stores

Maintain footpaths

Maintain the Green spaces and surrounding countryside

Medical facilities. Public transport.

Medical surgery at Fontwell

More buses to Barnham station (and back) and to Chichester

More farming Bigger car parks Less traffic Keep village small

More medical and dental practices. Improvement of local road surfaces.

More provision for young children. More provisions for teenagers for example a cafe or skateboarding park

More regular buses from Walberton to Barnham.

Most important - large development should be avoided - particularly those containing more than 15 houses.

MUGA - Multi use games area to include football, netball, basketball, tennis and exterior games area suitable for families Outdoor gym equipment suitable for all ages Extension to playing field in Walberton Provision of a play / green space in Fontwell - N Trust land?

MUGA - tennis football, basketball, outdoor gym equipment

Need a larger player field

New and improved park for older children.

New bus shelter on opposite side of road

New doctor dentist surgeries

New doctors surgery

New doctors' surgery to cope with extra numbers. Green spaces with paths/cycleways connecting. Low cost housing to allow young people of village to buy first home without having to move out.

New Drs surgery

New pavilion

New school if significant number of houses built Playground facilities for children

New school, doctors surgery, dentist, public transport (buses)

New/ Improved sports facilities and changing rooms for Walberton.

no improvements needed

No new building should take place, and so no bribes will be necessary. Council / Parish council should develop and maintain the current facilities, and increase trees and hedgerows. Green spaces are very important not only for our children, but for the environment and wildlife nothing needed

Nothing. We should not sell out to developers at any price. There are better ways of funding. If services really matter funding is always available via better routes.

Off - road parking for Walberton School pick-up and drop-off. Speed bumps in The Street.

Off road pathways between Walberton and barnham, Arundel and Fontwell/slindon.

Only larger sites will generate section 106, doctors surgeries, dentist, recreational facilities

Our family seriously opposes any new developments: Including housing, flats, social housing, units, offices, light industry, larger shops, social clubs, etc... Please leave our village dwelling as it is today! Thank you for listening. We do not want Fontwell to become a town!

Parking in the village, off road.

Path between Fontwell and Walberton and then Barnham community hall for Fontwell, especially if it increases in size. A27 permanent solution at Fontwell.

Pathways through field/to walk dogs Improved adult education facilities eg. evening yoga classes/swimming pool Village hall for Fontwell

Pavement (if not cycle track) continuously from Havenwood to Arundel

Pavement down West Walberton Lane. Doctors/ Dentist.

Pavements More street lights Re-surface Walberton Lane If large scale housing is built then Walberton village school should be big enough!!
Doctors surgery!!

Pedestrian crossing for the school children in the street

Pedestrian/cycle access between villages Arundel bypass More shops in Walberton

Pharmacy

Play area for kids

Playgrounds, cycle paths, facilities for teenagers

Positive discouragement of heavy goods vehicles passing through the village.

Possibly improve the existing village old halls to make them more useful to the village and all the sports needs

Protect and improve what we have. Don't threaten what we already have with major housing schemes. Reduce A27 speed limits and employ noise-reducing road surfaces and traffic calming measures with fixed speed cameras.

Protect the existing qualities and facilities provided within the villages Improve road condition!! Do something with the site of the former pub opposite Barnham station

Provide a pedestrian safe pavement from Walberton to Barnham. Provide a traffic calming system for the High Street or make it pedestrian only. Build a road to take additional traffic to the A29/27 and away from the villages.

Provide additional community places, Youth centre, doctors surgery etc, as developed at Boxgrove village hall, sports hall, community gym facilities.

Providing a safe village environment for pedestrians eg pinch points when entering the village and measures to decrease speed going through the village. The village has too many heavy goods vehicles driving through it which is happening in narrow lanes and small flats.

Public tennis courts in walberton. More facilities in fontwell and binsted

Public toilet facilities at the cricket field and play area in Walberton. These have been sorely needed for quite some time. Better drainage and sewage pipes for in and around the village of Walberton. Play areas aimed at older children.

Public toilets are needed extra car parking spaces are needed

Public toilets. When I didn't live here it was a long drive to any locally. They could easily be closed in the evening. When the new play centre is opened more parking spaces would be useful.

Public transport, pavements, street lighting, drains, better parking for school

Pubs Cycle Routes Protection of rural villages Open green spaces development of brownfield sites clubs for the young

Rec. facilities, new health centre

Refurbished/extended pavilion and extra parking

Remove sleeping policemen Install no entry access only signage Renovate all local finger signposts (the old black & white picturesque sussex ones) A few more litter bins (the cast iron square ones) Repaint our post box and old red telephone box

Replace pavilion Improve village hall

Replace Sports Pavillion on green

Replace the existing Walberton Pavilion with a new building to provide sports changing facilities, coffee bar, and an area suitable for young people to socialise, play indoor games, etc. Walberton has a good range of shops which are viable, and the pub all of which are assets to the village. The village hall is an excellent venue providing a good range of activities for children, adults, and the older generation of the village, and the playcentre will be an excellent provision for children. The age group that really needs more opportunities is the teens agegroup who just need a space as a base, and then the option to use the field for various games and sports. The pavilion is a great space to provide for sports, but the building is old and tired, so needs replacing.

Response Text

Resurface minor roads

Resurfing Roads Pathway Sports club to gym Bowling green Street lighting Café and coffee shop

Return to items in number 15.

Road calming, yellow lines to prevent chaos at school times

Road congestion (i.e on street parking) should be closely monitored.

Road improvements - cycle paths and foot paths. Flood defense.

Road surface and drainage in west walberton lane need urgent action. B.T. Need to upgrade cables to fibre optic to improve internet. Drainage by walberton pond and on Barnham road by chollet farm need upgrading.

Roads Play facilities Facilities for teenagers Cycle paths Improved road surfaces Improved street lighting Allotments Although I consider a allotment unless a priority to the villages as I have a small garden I would love one

Rugby Post on recreation ground A skate park

Safe crossing of A27

Safe cycle / pedestrian routes to neighbouring villages.

Safe Cycle Route to Barnham.

Safe footpath linking villages where both walkers-Cyclists-Horses can go without being in fear of their lives by walking on our lanes. Older age playpark including climbing equipment tennis court and skate park

Safe walkway for pedestrians in West Walberton Lane Public tennis courts Renovation/replacement of Walberton Pavilion (with no extra cost to users)

Safer pedestrian access through Walberton along the Street, with additional lighting and addressing the traffic congestion from the school to the shops

Safer walking routes around the villages

Safer West Walberton Lane is dangerous. I like to ride my bike to work (school) it has become very dangerous to ride!! Especially with my children! Play/meet field in Fontwell

School and sports facilities should be developed in line with increased population

School's - as new to the area I've had my children allocated separate primary schools. Where will all these new families attend school?

Short tennis, five-a-side football

Skate park, tennis courts

Skateboard area like in Yapton Hard surface area with lines of a tennis court Wall for hitting tennis ball against: playing throw, bounce catch. For children to play ball games on their own or with others. Foot path/cycle path to Barhnam. Needs to be next to road for safety from strangers. Climbing frame inWalberton playground- like at Littlehampton

Skatepark and outside gym New cricket pavilion

Small village hall

Speed enforcement, traffic calming, more cycle paths

Speed restriction through village, maybe speed breakers.

Speed warning sign

Sport facilities Play area

Sport facilities:- tennis court? skate park? Sport and games facilities would be a welcome addition to Walberton. There is nothing for young people to do other than "hang out" at the playing field. The cricket net installed last summer was a popular facility.

Sports facilities (skate park/tennis courts) play facilities and café.

Sports facilities would be very important to both young and old and would mean less travelling to other sports centres; would be very important for community cohesion, fitness, mental physical health

Sports, games and youth facilities for families. Shop with longer opening hours.

Street lighting

Street lighting More cycle areas

Street lighting eg down church lane, so you can walk easily to and from church on a winter evening.

Street lighting, better road surface

Surfaced running/training track that could provide a non muddy dog walking route as well.

Tantamount to blackmail! We should not be brought by developer whose only interest is making money!!!

Telecoms infrastructure including fibre to premissis.

Tennis courts Youth club

Tennis courts/clubs. Bowling.

The best solution would be for small developers to build small developments and to repair the rural roads onto which the small developments would feed. No new facilities will be required unless too many houses are added, we would then need extra schooling, medical facilities, shops and police station.

The main concern for me is where is all the extra traffic going to go as mentioned Walberton village has a very small road, a lot of the new traffic will come through Yapton Lane making it more hazardous. I think the play areas and sports ground facilities are adequate for the size of the village.

I think the play areas and sports ground facilities

The roads are my main worry Yapton Lane having recent repair work carried out is breaking up again leaving dangerous potholes in various areas.

The money should be shared out and not only used to improve Walberton. Walberton could do with a bypass. Trees must be planted in their thousands. New pubs should open up in Walberton and Fontwell, aimed at the younger generation. Places for the young (teenage years) should be made available or accessible. Remember - most teenage girls do not play football or cricket. Express supermarkets (not 24 Hour) need to be allowed.

The perfect way to encourage corruption and such bribery should not be encouraged.

These so called funds for the community are nothing short of bribes. Other than making sure that the roads are repaired after heavy plant use I don't believe any of these schemes result in net good. Often something not needed or used as a "reward" for a huge development scarring the environment. Real benefits would be renewed water & sewer pipes, installed high speed broadband, Replacing the overhead electricity underground, providing pavements along most of the lanes. None of these essential benefits would come from a developer as they don't own the land or the ability to involve themselves in utilities. So communities get another building on the precious land & then often the upkeep in perpetuity which ends up a white elephant

To support any of the facilities in 15

Traffic calming

Traffic calming facilities

Traffic calming improvements to stop traffic using west warburton lane,

Traffic calming measures desperately needed to discourage through traffic. Revive the idea of a footpath alongside Yapton Lane for safer walking to and from the Black Horse!

Traffic calming Narrow road

Traffic calming, a greatly improved bus service. Priority is the pot hole repairing.

Traffic control

Update pavilion

Upgrade Pavillion.

Upgrade the Pavillion

Village is fine as it is - no funding needed

Walberton pre school should be given it's own building! It's disgusting how it was treated over the new building. It should have it's own purpose built building and playground. How stupid to let people out of the village take over the new building and open as a nursery school. meant to help not kill off what we already have!!!!

Walberton school needs more playing field space.

Walberton's pavements urgently need attention, notably along The Street and Dairy Lane. These pavements undulate and slope, and are unwalkable in icy conditions. I have had several falls and broke my arm last time. A fence at the back of the shopping area car park would be a useful safety feature. Local standing water problems after heavy rain would be improved if leaves were swept up and collected instead of being blown around, and thought could be given to small-mesh drain covers which would allow water through but not leaves. A dog waste bin at the farm end of Dairy Lane would be sensible. Security surveillance at the village hall car park would encourage responsible parking and reduce vandalism.

We don't need any at Fontwell, we use Walbertons.

We don't want any

We would prefer not to have any funding if it meant that large developers would be involved in our village. The experience with Hanbury Homes and the houses at the back of the Holly Tree has not been a positive experience for the village.

We would prefer to forgo any funding if it was associated with the presence of a large developer in the village. The experience with Hanbury Homes has not been a happy one.

West Walberton Lane, Barnham Lane should be re-surfed

Wider pavements

Wider pavements. Speed bumps on The Street, Walberton. Traffic calming measures generally.

With regards to outdoor play areas and "places for young people to meet", we are just creating areas for them to loiter and litter. My family have just moved from Tangmere and I've seen too much of it

Would there be an opportunity to encourage more steps perhaps at Bookers yard? A skate park would be very good for local teenagers.

You know, I like my village (Walberton) that is why I came to live here and have lived here for the past 29 years. I accept it has less amenities than nearby towns, and perhaps less lighting or pavements, but that is because it is a village, in the country. It is what I expect, and I am happy to accept some of the so-called problems because the pay off is less noise, less traffic, less people etc etc. It works for me, it has worked for me and many other people for many years, It doesn't need to change and become like other places, the beauty and appeal of it is that it is not like other places. It's just fine as it is. I understand we need more houses but the least impact they make the better. I don't want to live in an urban sprawl, I just want to live in a village, warts and all!

You should.
