

OPEN DAY

External Assistance

To help with the review and creation of a robust and fair Neighbourhood Plan, independent organisations have been engaged.

- **AECOM** is a large company which has worked and advised on Neighbourhood Plans across England.
- **Process Matters 2** is an organisation which has helped to produce a number of Neighbourhood Plans in Sussex.

Site Selection

All of the sites put forward for consideration have been assessed and reviewed by AECOM, our independent professional advisor. Each site is evaluated against a number of criteria.

Their full report is available as part of the evidence base for the Neighbourhood Plan. It can be read on the Walberton Parish Council website.

Their advice has resulted in the choice of sites which you see here today.
